### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 17-19 to invention non-elected without traverse. Accordingly, claims 17-19 have been cancelled.

2. The following is an examiner's comment on the amendment filed 12-6-2004 to the specification on page 5:

The amendment to change "lower heat transition coefficient" to "higher heat transition coefficient" is not considered as new matter as the original specification states that "inner channel members 5 are thinner or consist of a material having better heat conduction properties". Therefore, the amendment appears to be consistent with the disclosure as originally filed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
